

## **CICO-SWIS Facilitator Certification Training (Michigan Residents Only)**

This training prepares participants to support schools implementing the CICO-SWIS web application as a CICO-SWIS facilitator. Participants must be certified SWIS and I-SWIS facilitators to register for this training. Registration for the live webinar and certification must be completed by the participant and approved by the trainer.

### **Target Audience**

Current SWIS and I-SWIS Facilitators

### **CICO-SWIS Facilitator Certification Requirements include:**

- Complete a Screening Questionnaire to verify that the role of CICO-SWIS facilitator is a good fit for your current position.
- Pre-Training Module. The Check In Check Out intervention is the backbone of the CICO-SWIS web application. A pre-assessment measures prior background knowledge. Module lessons review the purpose, core components, and research behind CICO. A post-assessment measures final understanding of CICO before the webinar. The pre-training module will open approximately one week prior to the webinar. Please schedule at least 75 minutes, no later than 24 hours before the webinar's scheduled start time, to complete the module.
- Attend the Live Webinar, which includes lecture, demonstration, and activities related to the use of CICO-SWIS in monitoring the CICO intervention and the role of the CICO-SWIS facilitator in implementation. Participants are required to engage throughout the webinar and interact through discussion, poll questions, and other activities as directed.
- Post-Training Certification Activities are the final demonstration of participant skills in using the CICO-SWIS application and knowledge related to facilitation tasks (e.g., readiness, licensing, user training, coaching, technical assistance). Activities must be completed within 2 weeks of the webinar and are reviewed by a PBISApps staff member.
