February	District Winter Continuous Data Review	District Implementation Team

Year 3 and 4

Timeline	Topic	Audience
August/ September	District Fall Continuous Data Review	District Implementation Team
February	District Winter Continuous Data Review	District Implementation Team

In addition to the professional learning sessions listed above and in the elementary and secondary scope and sequence documents, at least one person from the district must attend data coordinator trainings. MIBLSI will help the district to select the right person and timing to attend certification training.

MIBLSI periodically reviews and revises the scope and sequence and professional development materials in order to ensure the highest quality training and supports. This will result in durable, sustainable implementation of MTSS with fidelity that will lead to improved student outcomes. In the event of proposed changes, partners can expect communication regarding why and strategic planning to support transitions.

MTSS Scope and Sequence District Implementation Team (January 2018)
